Previous learning

EYFS knowledge

Know that technological devices can be used to communicate and record information.

Understand that data can be stored on a device.

Year 1 knowledge

Recognise common uses of technology beyond school.

Understand that data can be organized and manipulated on a device

Key information

More and more these days, music is created using technology. The songs you listen to and love were all created with at least a little bit of technology.

There are loads of different apps that people use to create music, it all depends on how confident they are with the different ways they are set out.

At home, you might have used an app called GarageBand to create a little song. In this unit you will use an app called chrome labs which lets you create music using different instruments and it also lets you upload your voice if you like to sing!

Curriculum links

Music:

Play tuned and untuned instruments musically.

Listen with concentration and understanding to a range of high-quality live and recorded music.
