Knowledge Progression Grid

The three-fold aims of RE in Nottinghamshire will ensure that pupils:

- | | | |
|---|--|---|
| 1. Know and understand a range of religions and world views which will allow them to recognise the diversity which exists in our society. | 2. Can express ideas and insights about the nature, significance and the impact of religions and world views as they develop their own personal views on a range of issues | 3. Develop and use skills which will assist them to engage seriously with religions and world views |
|---|--|---|

By following the agreed syllabus, RE will contribute to a whole range of school priorities. Their study will promote spiritual, cultural, social and moral development, as well as enabling them to consider British Values for others who hold different views. RE will enable children to:

EYFS- Encounter religions and worldviews through special people, books, times, places and objects and by visiting places of worship. They should listen to and talk about stories. Pupils can be introduced to subject specific words and use all their senses to explore beliefs, practices and forms of expression. They ask questions and reflect on their own feelings and experiences. They use their imagination and curiosity to develop their appreciation of and wonder of the world in which they live.

KS1- Develop their knowledge and understanding of religions and worldviews. They find out about simple examples of religion that are drawn from local, national and global contexts. They should use basic subject specific vocabulary. They should raise questions and begin to express their own views in response to the material they learn about and in response to questions about their ideas. The RE curriculum is engaging and interactive, using story, music, drama, activity, teamwork, thinking structures and language work to enable deepening engagement from every child.

KS2- Extend their knowledge and understanding of religions and worldviews, recognising their local, national, and global contexts. They should be introduced to an extended range of sources and subject specific vocabulary. They should be encouraged to be curious and to ask increasingly challenging questions about religion, belief, values and human life. Pupils should learn to express their own ideas thoughtfully and creatively in response to the material they engage with, identifying relevant information, selecting examples, and giving reasons to support their ideas and views.
