

# Year 3—Seasons

## Previous learning

### Geography

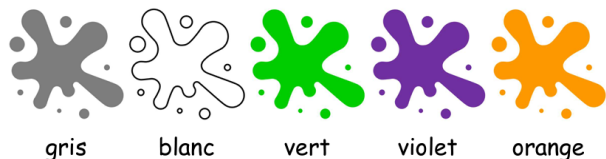

#### Year 1

- I know there are four seasons, autumn, winter, spring and summer
- I know that summer is the hottest and winter is the coldest season in the UK.
- I know and recognise the main weather symbols.

### Science

#### Year 1

- To know the basic structure of a plant – leaves, flowers, roots, seed, trunk, stem.

**Know** that words have sound patterns.

**Know** that familiar spoken words in another language can be listened to and understood.

**Know** familiar words written from memory.

**Know** that grammar is word pattern.

### Grammar we will learn & revisit:

Nouns & articles/determiners.

We will start to notice that in French there is often an article/determiner before a noun when we do not use one in English. For example, spring in French is 'le printemps'.

Starting to notice also that there are more words in French for 'the' than in English!

## Key Vocabulary

<b>Les saisons</b>	The seasons
<b>L'hiver</b>	Winter
<b>Le printemps</b>	Spring
<b>L'été</b>	Summer
<b>L'automne</b>	Autumn
<b>Il fait froid</b>	It is cold
<b>Les fleurs poussent</b>	The flowers grow
<b>Il y a du soleil</b>	It is sunny
<b>Les arbres perdent leurs feuilles</b>	The trees lose their leaves
